* In cases where blanks occur, the article was probably classified under some general heading and not particularly specified. † The value of dynamite imported during 1896 (£45,299) was accidentally omitted when making up the Return of Imports for 1896. The amount therefore is accounted for in the total Imports for 1897. ‡ £42,000 out of this amount was, through a clerical error, omitted from the total amount of Imports for 1896, and therefore is accounted for in the total Imports for 1897. § Through a clerical error, £7,080 of this amount was omitted from the total amount of Imports for 1895, and is therefore accounted for in the total Imports for 1896.

* Timber is not to remain under load unless demurrage is paid for detention. If it be necessary to discharge timber at shore end of Bunbury Jetty to wait ship's arrival, it should be discharged by owners; and when required for shipment, owners must do their own loading and discharging. The Department will do the haulage from shore end to ship's side, and charge wharfage dues at 1s. per ton. Should timber be delayed on the Department's ground at shore end of jetty longer than sixty (60) days, a charge of 2d. per ton per week to be made for each week or part thereof following the sixty (60) days.

* Included under heading "Orchards and Gardens."

** The apparent falling off in 1896-97, as regards the heading "Orchards and Gardens," is explained by the fact that the acreages now separately specified under "Onions," "Other Root Crops," "Market Gardens," etc., were in previous years all included under the one heading.

† *The acreages under "Vines" and "Fruit Trees" in 1896-97 and 1897-98 have been compiled on the basis of the actual number of vines and fruit trees planted according to a standard supplied by the Department of Agriculture, which allows 600 vines or 100 fruit trees to the acre: a comparison between the figures of these years and those of previous years is, therefore, valueless.*

‡ "The Total Area under Crop" in 1896-97 was 111,738¼ acres, and if there be added to this 4,043½ acres under *permanent artificially sown grasses,* 24,945¼ acres *cleared and prepared for immediate use,* and 22,561¼ acres of land in *fallow,* the area of *arable land* at the end of the season will show a total of 163,288¼ acres.

§ "The Total Area under Crop" in 1897 was 133,182¾ acres, and if there be added to this 3,316⅝ acres under *permanent artificially sown grasses,* 35,424¼ acres *cleared and prepared for immediate use,* 39,898 acres of land in *fallow,* and 58,703½ acres of *cleared land, previously cropped, now used for grazing or not used,* the area of *arable land* at the end of the season will show a total of 270,525⅛ acres; an increase on the previous year's figures of 107,236⅞ acres, or 65·67 per cent.

‖ Includes 27½ acres *miscellaneous crops.*

INDUSTRIAL ESTABLISHMENTS (EXCLUSIVE OF MINES).

For details of Mining Statistics see Part VII. of the Statistical Register.

The Statistics relative to *Industrial Establishments* for the year 1897 have been compiled from Returns supplied by such Establishments only which come under the operation of "The Industrial Statistics Act, 1897" (61 Vict., No. 26).

An "Industrial Establishment," according to the Interpretation Clause, means "any factory, workshop, or mill where either four persons or more have been employed at any time during the year, or where an engine driven by steam, gas, or electricity has been used, whatever be the number of persons employed, and any mine which has been worked at any time during the year, whatever be the number of persons employed."

In the Returns for 1896 an Establishment where no engine was used was taken into account if at least *five* persons were employed, but the minimum number has, by the Act above referred to, been reduced to *four*.

No. 1.—*Number of Industrial Establishments (exclusive of Mines) under each Class of Industry, and number of Males and Females employed in such Establishments, 1897.*

The number of men employed at mines or upon prospecting work during 1897 was 17,903, the greater number of whom were not actually engaged below ground. The proportion of fatal accidents per 1,000 miners thus employed is 1·68. Comparing the death-rate from accidents with the total quantity of gold exported, 30 persons were killed for a production of 674,994 ounces of gold, a proportion of 22,500 ounces per life lost.

* From 1876 to the beginning of the year 1886 all business relating to Patents was controlled by the Colonial Secretary.

† By "The Patents, Designs, and Trade Marks Acts Amendment Act, 1894," the provision existing for the granting of Letters of Registration was repealed.

NOTE.—Up to the beginning of the year 1889 the fee for Letters of Registration was £25, and that for Letters Patent £50; these were then reduced to £15 and £4 respectively. In March, 1892, the fee for Letters of Registration was further reduced to £10.

* On the 28th of October, 1879, the town of Northampton was declared to be a Municipality. No advantage, however, having been taken of the Proclamation, the name of the Municipality has been excluded from the present returns.

† Supplied by Lands Department.

(*a*) Not specified. (*b*) Not in existence long enough to supply return for 1896-7. (*c*) No capital valuation made. (*d*) Including 500 temporary structures. (*e*) Constituted a Municipality by "The Municipal Institutions Act, 1871" (34 Vict., No. 6). (*f*) No returns furnished when applied for. No Balance Sheet for 1896-7 published. (*g*) Not stated.

* From the first settlement of the Colony up to the year 1837 there were no Blue Books issued, and the figures relating to arrivals and departures, shipping, imports and exports, were taken either from the reports of the Harbour-Master at Fremantle, or from the Perth newspapers of that period. From 1837 to 1859, inclusive, the Blue Books give only the excess of arrivals over departures, or *vice versa*.

† The exports up to the year 1834 consisted of only supplies to shipping, of which no record was kept.

‡ No record of imports for the year 1836 can be found.

§ The Blue Books for the years 1839 to 1842, inclusive, do not give any statement of either imports or exports.

‖ From the year 1893 to date shipments have been made of both greasy and scoured wool, and the prices given in the table in decimals are the averages realised for the total amount exported.

1898.

Preliminary Abstract of the Western Australian Agricultural and Live Stock Returns for the Season 1897-98.

Compiled in the Registrar General's Office, Perth, under the provisions of "The Industrial Statistics Act, 1897" (61 Vict., No. 26).

Areas under various kinds of Crops in Western Australia during each of the Ten Seasons 1888-89 to 1897-98.

* Included under heading "Orchards and Gardens."

** The apparent falling off in 1896-97, as regards the heading "Orchards and Gardens," is explained by the fact that the acreages now separately specified under "Onions," "Other Root Crops," "Market Gardens" etc., were in previous years all included under the one heading.

† *The acreages under "Vines" and "Fruit Trees" in 1896-97 and 1897-98 have been compiled on the basis of the actual number of vines and fruit trees planted, according to a standard supplied by the Department of Agriculture, which allows 600 vines and 100 fruit trees to the acre; a comparison between the figures of these years and those of previous years is, therefore, valueless.*

‡ "The Total Area under Crop" in 1896-97 was 111,738¼ acres, and if there be added to this 4,043½ acres under *permanent artificially sown grasses*, 24,945¼ acres *cleared and prepared for immediate use*, and 22,561¼ acres of land in *fallow*, the area of *arable land* at the end of the season will show a total of 163,288¼ acres.

§ "The Total Area under Crop" in 1897 was 133,182¾ acres, and if there be added to this 3,316⅝ acres under *permanent artificially sown grasses*, 35,424¼ acres *cleared and prepared for immediate use*, 39,898 acres of land in *fallow*, and 58,703½ acres of *cleared land, previously cropped, now used for grazing or not used*, the area of *arable land* at the end of the season will show a total of 270,525⅛ acres; an increase on the previous year's figures of 107,236⅞ acres, or 65·67 per cent.

‖ Includes 27½ acres *miscellaneous crops*.
